Web developer with nearly two years of company and freelance experience in React, Next.js and TypeScript: restaurant-management applications and hotel-booking interfaces connected to REST APIs (authentication, reservations, customer data). As a student at École 42 Paris (RNCP level 7), I also work on the server side: Node.js and Socket.io, a C++ network server, Docker infrastructure. I am looking for a **full-stack apprenticeship (alternance) from January 2027**.

SKILLS

- **Front-end:** React, Next.js, TypeScript, JavaScript, Redux, Tailwind, HTML, CSS
- **Back-end:** REST APIs, authentication, Node.js and Socket.io (in progress), C / C++
- **Databases:** MariaDB / SQL
- **DevOps:** Docker, Docker Compose, NGINX, Linux, Shell
- **Quality:** automated tests (Jest), code reviews, Git / GitHub

EDUCATION

École 42 Paris
2022 – present
- RNCP level 7 title (Bac+5) in progress
- Common core completed (transfer from 1337 Khouribga)

ISTA Khouribga
2019 – 2021
- Diploma in multimedia development

SOFT SKILLS

- **Teamwork:** peer learning, group projects
- **Client relations:** requirements
- **Autonomy:** end-to-end freelance work

LANGUAGES

- **Arabic:** native
- **French:** professional
- **English:** professional

PROFESSIONAL EXPERIENCE

Frontend Developer | 01Neo
Marrakech, Morocco | Nov 2025 – Apr 2026
- Restaurant-management SaaS (React, Next.js): back office for reservations, menus, users and pricing
- REST API integration: authentication, reservations, customer data; availability and scheduling
- Performance improvements (lazy loading, code splitting)

Frontend Developer Intern | 01Neo
Marrakech, Morocco | Jun 2025 – Nov 2025
- Next.js website for the Le Blokk restaurant and its admin interface, then hired as a developer

Freelance Frontend Developer | TechMarra
Remote | 2024 – 2025
- Hotel-booking workflows and room-management pages connected to APIs (authentication, reservations)

PROJECTS

Red-Tetris — 42 (in progress)
- Real-time multiplayer Tetris: Node.js + Socket.io server, React / Redux client, automated tests

ft_irc — 42 (team project)
github.com/ahallali/IRC-Server
- IRC server in C++: TCP sockets, multiplexing with poll(), multiple clients and channels

Inception — 42
github.com/ahallali/inception
- Docker Compose infrastructure: NGINX (TLS), WordPress / PHP-FPM, MariaDB, dedicated volumes and network

Task-management app
github.com/ahallali/todo-app
- React / Redux: search, filters, data persistence, more than 100 automated tests
